

5300 SERIES

This exceptional 3 piece design arrangement of union and nipple available in six Different lengths. The essential advantages of this design over the conventional Nipple-Union-Nipple model are:

- [Two NPT connections versus four](#)
- [Closer control of General assembly Length](#)
- [Improved control of sensor extent for spring loading usages](#)
- [Superb Heavy Duty construction \(Schedule 80\)](#)

5300 SERIES
