

# 316 S.S. COMPRESSION FITTINGS

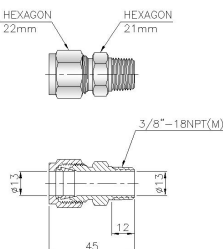

• Compression fittings are used for connecting metal tubes useful for high and low temperature applications and compatibility with aggressive fluids these can be seen in systems varying from gas lines in refineries, to waste and water applications across all industries.

- Non Magnetic Stainless Steel
- All CNC Machined, No Manual Polishing on Hex or Threads
- 316 Stainless Steel per ASTM standards.
- Sharp Threads for Proper Engagement to Prevent Leaks
- Bore Through, for Thermocouple Connector,
- Also available in different Metal Alloys (Brass)

CAD-CF2537SS

CAD-2-CF5050SS

## SERIES SIZE

- 1) CF2537SS 1/4" NPT X 3/8" TUBE
- 2) CF3650SS 3/8" NPT X 1/2" TUBE
- 3) CF5018SS 1/2" NPT X 3/16" TUBE
- 4) CF3737SS 3/8" NPT X 3/8" TUBE
- 5) CF2525SS 1/4" NPT X 1/4" TUBE
- 6) CF3737SS 3/8" NPT X 3/8" TUBE
- 7) CF4050SS 1/2" NPT X 1/2" TUBE
- 8) CF2412SS 1/4" NPT X 1/8" TUBE
